To Whom It May Concern

Peter Feeney was the guest speaker for our annual New Zealand Venture Capital Association conference on November 4th this year, which was held at the Sky City Convention Centre. After our initial briefing with Peter, he spent a considerable amount of time researching our industry and the audience, and that was evident in the outstanding success of his speech. Our audience were engaged right from the start and the feedback we have received has been excellent. Peter is extremely funny and entertaining, and was very professional at all times - we can definitely recommend him for an event.

Yours sincerely

Linda Taylor
